Tailor-made insurance concepts

We are an independent broker looking for the best solutions. Our partners are all aviation insurers in Continental Europe and in the important UK aviation insurance market. For a better overview in the international sector, we use cooperation with broker partners around the globe.

Our experience helps us to identify and understand your needs together with you. Based on this, we design

customized risk concepts and coverage models that are requested in the market: On the one hand, to minimize your costs and, on the other hand, to be able to cover all existing and possible risks optimally.

Reliable claims handling

In addition to tailor-made insurance contracts, our main focus is servicing in the event of a claim. Competent claims handling and coordination with the insurer are the „be-all and end-all“ in order to be ready for operation again quickly. In the event of a claim, you are welcome to contact our service hotline - we are available for you 24/7.
