

GrECo Online Services  
Global. Transparent. Individual.

GrECo,  
matter of trust.

## GrECo Online Services

At GrECo, our goal is to create measurable added value for our clients with specialized and tailor-made solutions. This applies not only to several industries and insurance lines, but also to our online solutions for clients.

### In-house IT-Development

For more than 15 years, we have been developing our own internal IT solution to manage our client relationships, i.e. handle your policies and claims and conduct extensive analyses using a tailor-made management information system. This unique selling proposition in the IT sector sets us apart from our competitors.

The experience and know-how we have gained over the time has also contributed to the development of a progressive online solution for our clients for about 10 years. In order to provide you with 24/7 global, transparent and individual information, we have expanded our core application and born GrECo Online Services.

### Expert team for online solutions

Most important for us is to be able to react quickly and individually to the wishes of our clients. This is ensured by a team of over 50 highly qualified and multilingual employees, who is active in the development of our online solution as well as in the areas of infrastructure and security. The IT-Specialists ensure friction-free operation on an ongoing basis and provide regular updates. Our latest version of GrECo Online Services has now been enhanced with Microsoft Power BI. With this Business Intelligence tool you can visualize your risk and insurance data interactively and create your own reports and dashboards.

### Focus on data security

A further advantage of an in-house development is the freedom to decide on the storage and security of data. Your data will be stored in the ISO/IEC-27001 certified Microsoft Cloud Azure in the EU - without further buffering. The data, as well as your entire risk and insurance management, are in safe hands with us!

Sincerely,

Igor Raicevic  
Head of Group IT

# Our solution. Your benefit.

With GrECo Online Services, you can always keep an eye on the latest developments in your risk and insurance management: from the informative overview to the smallest detail of your policies and claims - and all that at any time and anywhere close at hand. Because you can easily access the daily updated data on the internet.

## GrECo Online Services

- offer a modern way of working - simple and fast without paper,
- contain all your data processed by GrECo and the GrECo nova partners worldwide,
- are available around the clock and the data can be exported for further processing,
- are an internal development of GrECo (no buffering of data) and
- use the ISO/IEC-27001 certified Microsoft Cloud with data storage in the EU.

**Global.**  
Always have everything at a glance.

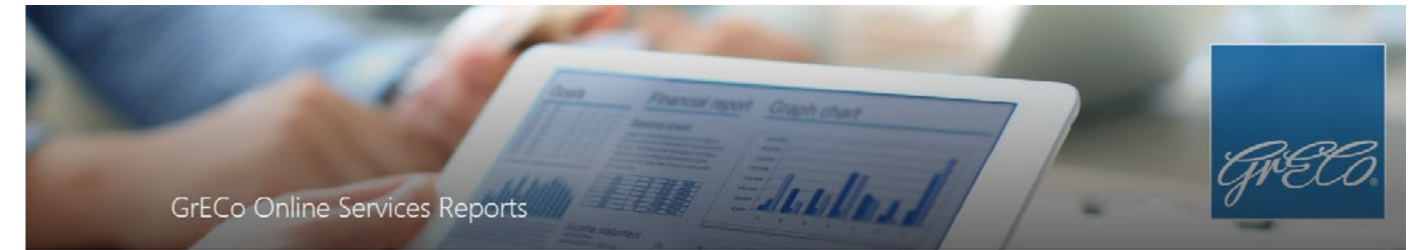

**Transparent.**  
Know each and every detail.

**Individual.**  
Perfectly tailored to your needs.

GrECo Online Services provide you with up-to-date information and analyses that simplify your risk and insurance management. In clear maps and graphics, you can analyse policies and losses according to your wishes and export them as images or data. With our dynamic reporting tool Power BI, you can view data at global or country level, by insurer, insurance line and much more. An overview of the latest changes and news from the insurance sector round off the information. In the contact area you will find the coordinates of all GrECo nova contacts worldwide.

All details are shown in the policy and claims lists. You can sort, filter and search the data with a full text search. Documents can be assigned to a policy or a claim, a separate document collection with reports such as a property underwriting report, an overview of developments in the insurance market, communication matrix etc. is available. With just one click you can export and further process the extensive data. And if something changes? Then you will be informed via email or RSS notification, you can decide for yourself how often or about what you receive the information.

Choose for yourself who can find which information in the GrECo Online Services! You can assign permissions for each individual user, and also define the languages, because GrECo Online Services are available in several languages. And all this 24/7 via secure and password-protected internet access - without program installation and maintenance. And if you want a little more, we can add more modules to our IT tool and customize them for you. Because we develop GrECo Online Services ourselves, we can fulfil your wishes quickly and flexibly.

## About us.

### Who we are.

We have been a privately-owned family business ever since the beginning. Our independence is a privilege: we are not responsible to stock market analysts or share prices, we are only committed to meeting the needs of GrECo target groups.

Our far-reaching network, the pioneering work in Eastern Europe and Central Asia as well as the trust placed in us has made us the leading insurance brokers and consultants in the region. A pole position that we, a family business with strong roots in Europe, are particularly proud of.

### What we do.

In our risk and insurance management solutions for industry, trade, commerce and public sectors, we put the spotlight on individuality. GrECo provides optimum security for clients' employee, operational and financial risks and manages these risks at all levels.

Trust and proximity characterise our relationships with clients. Coupled with

a broad spectrum of specialties and expertise, this enable us to precisely assess risks and tailor and optimise risk and insurance costs for our clients.

In addition to our core business as brokers and consultants for industrial insurances, we are also active as re-insurance brokers, risk engineers and developers of client-focused software solutions.

## Global reach.

GrECo nova is the global specialist insurance broking network which provides our clients with decisive benefits in all their global ventures.

### nova independence. Independent advice worldwide.

Ever since its foundation, GrECo has been an independent family business. This independence has been instilled in us – it defines us, worldwide. That is why we mostly collaborate with leading local brokers who are as independent as we are and who share our guiding principles and self-image.

### nova flex. Maximum flexibility worldwide.

Wherever you go, we are already there. As an independent risk and insurance consultant, we are flexible to individually identify the best possible local solutions for our clients. Our openness in choosing partners gives you maximum flexibility. We not only look for the right partner for you, we already work with him!

### nova value. Premium quality worldwide.

We not only act responsibly but consider it our responsibility to ensure that the local brokers we select provide top quality services. This is what we demand from them, on behalf of our clients, no questions asked. For that we have agreed on comprehensive service standards with our partners. This also means, we guarantee GrECo quality worldwide, wherever you are.
